

Your wells have to be registered. Let us handle it for you.

- GREATER KAWEAH GSA — DEADLINE JULY 1, 2026

And know where your water year lands — your projected true-up and bank
runway from your own field data, **so the bill is never a surprise.**

A SERVICE OF AGOPTICS
DATA • INSIGHT • BETTER DECISIONS

WHAT WE DO FOR GROWERS

Two ways we keep you ahead of SGMA.

01 WELL REGISTRATION

We register your wells for you.

We gather each well's location, type, and status, confirm it with you, and file the registration with your GSA — Greater Kaweah and Mid-Kaweah. You confirm the details; we handle the paperwork and the deadline.

02 YEAR-END WATER PROJECTION

See the true-up before it lands.

WaterOptics runs the same allocation math your GSA bills on and projects where every field ends the water year — your true-up and bank runway — in time to act, instead of finding out in November.

REGISTRATION DEADLINES

Greater Kaweah GSA Mandatory — deadline July 1, 2026

ACT NOW

Mid-Kaweah GSA Registration program open now

Get registered before the deadline — we'll do the filing.
